

Drs. Fine, Hoffman & Sims LLC

Patient: _____ Ticket #: _____ Date: _____

Is this a **Routine** refractive or **Medical** eye examination?

Routine Vision (Refractive) Coverage: Your “vision” insurance is intended to provide you with a baseline eye evaluation and update your glasses prescription only. If the doctor discovers a medical eye problem during a routine exam, the doctor will finish the routine examination if able, and ask you to return at a later date for the medical exam.

Medical Eye Examination Coverage: If you have an eye condition such as but not limited to: cataracts; macular degeneration; glaucoma; dry eyes; cornea problems, or a new symptom to be evaluated, this examination will be billed to your medical insurance.

➤ I am here for a: (circle one) **Routine Refractive (Vision)** **Medical Exam** **Self Pay-no insurance**

Notice of Patient Responsibilities: *Many insurance companies do not pay for a routine vision examination. It is your responsibility to check with your insurance carrier for proper coverage and to let us know before your eye examination if you are using a routine vision benefit or medical insurance. Please understand each patient’s insurance coverage varies and Drs. Fine, Hoffman & Sims cannot be held responsible for knowing every patient’s coverage. By signing below, I understand that I will not be able to change the insurance billing type from Routine Vision to Medical, or Medical to Routine Vision once the exam has been completed. Billing questions can be discussed with our billing department. If we have made an error in your billing, we are happy to correct it; however, we are unable to change visit codes or lab codes from preventive (Routine Vision) to non-preventive (Medical) or vice-versa due to insurance coverage or copay issues. You are responsible for any charges not covered by your insurance.*
